

Winter/Spring 2013 Courses and Workshops
What a great holiday gift for someone you care about!

Singing for the “Tone Deaf” (adults)

Did someone tell you that you couldn't carry a tune? Probably in second grade? And you love music but have missed out on making music yourself all these years? If you can recognize your mother's voice on the telephone, and if you can tell by the sound of her voice whether she's happy or sad, you can learn to sing in tune. Carol Roan has been teaching the “tone deaf” how to sing for more than 30 years. Bring a favorite hymn or song to the first class. You'll be able to sing it well by the end of term.
