Getting Ready to Register

A Degree From Salem: Requirements and Choices

1. **A Salem degree requires 120 semester hours.** The number of semester hours, in general, reflects how many hours per week the class meets. Lab classes, classes that meet 4 or 5 times weekly, or classes that extend over more than one regular class period are often worth more than 3 semester hours.

2. **Salem has 3 regular terms:** Fall semester, January term, and Spring semester.

3. **In the Fall and Spring semesters, a typical load is 12-15 semester hours:** You need to average 30 semester hours each year for 4 years to get to 120. For instance, if you enroll in 12 semester hours in the fall, 3 in Jan term, and 15 in spring, you’ll hit 30. If you are starting college with AP credits or credits from early college, you may be able to take fewer than 30 semester hours per year and still finish on time. To register for more than 18 semester hours, you’ll need to get permission from the dean of undergraduate studies or from the registrar.

4. **In the Fall and Spring semesters, you must be registered for at least 12 hours.** At Salem, all traditional-age students must be full-time, and 12 semester hours is the federal minimum for full-time status. **NOTE:** if you are a North Carolina resident, you may need 15 hours to get the maximum amount on one of your scholarships.

5. **A Salem degree includes 3 parts:**
   A. **The Salem Impact:** These are the courses required of all students no matter what their majors are. We call these courses “general education” courses or “Gen Eds” because they are designed to teach you skills you can use in any field and to give you at least a taste of all the fields you could study. You can see a list of the requirements on the last page of this document.
   B. **Your major:** You may know what you’d like your major to be, or you may not be sure. Either way is fine—most Salem students change majors at least once while here. At Salem, you can “declare your major” officially only after you’ve made at least a C in at least one course that counts towards that major. Majors require different numbers of courses or semester hours. The Catalog lists requirements for each major, in alphabetical order by departments [http://www.salem.edu/academics/catalog](http://www.salem.edu/academics/catalog).
   C. **Electives:** Most students end up taking some courses that are not required for the Signature or for their majors. Many Salem students double-major, or choose one or more minors as ways of organizing these electives.

6. **Must I have a major?** Yes, you must declare a major by the end of your sophomore year. If you are not sure what you want your major to be, don’t worry—your advisor can help you decide over your first two years, and in the meantime you can take courses that meet Signature requirements.

7. **Must I have a minor?** No.
8. **May I double-major?** Yes. It is easier to do with majors that require 12 or fewer courses. If you think you want to double-major in something, be sure to tell your advisor.

Interpreting the Course Schedule

To see the whole list of courses that we are offering this fall, follow this link: [https://selfserv.salem.edu/SelfService/Home.aspx](https://selfserv.salem.edu/SelfService/Home.aspx)

Ignore the “login” button until you get your Salem ID number, but instead, click on “Find Courses” just beneath the “Students” label. That takes you to a “Section Search” screen. In the “Period” box, choose “2019 Fall” from the drop-down menu and then click “Search.” You are now looking at all the courses offered at Salem for Fall 2019. In the left-hand margin, you can adjust how many courses you want on a page; if you choose 50 or 100, you can reduce the number of pages. You can also use the “Departments” bar, just above the course listings, to let you see all the courses offered in any one department.

Here’s how to interpret the information you see:

- **Book icon:** This icon just to the left of the course title is either green (there are spaces available) or red (there are no spaces available).
- **Course:** The name of the course comes first; just below it is the abbreviation we use (ACCT 120 means “Principles of Financial Accounting”. “Lecture” means that it’s a traditional class rather than an independent study, lab, seminar, or internship. The capital letter at the end of the string ACCT 120/Lecture/A means that this is the A section of that course; some courses have more than one section. We use Y as the section designator for hybrid courses—those courses meet partly in-class and partly on-line. We use O for courses that are completely online. If you click on “ACCT 120/Lecture/A,” you can read a description of the course, and you can see if there are any prerequisites (courses you’d have to take first before you take this one). For instance, ACCT 140 requires having passed ACCT 120 and either MATH 70 or 100. The course description also lets you know if the course meets any Salem Impact requirements; for instance, the course description for ACCT 120 has (QI) at the end, meaning that this course satisfied the Quantitative Interpretation requirement.
- **Date:** these are mostly all the same, except for PHED activity courses. PHED courses with numbers in the 100’s meet for the first half of the semester; those with 200’s meet for the second half of the semester.
- **Credits:** this tells you how many semester hours the course is worth. You must take at least 12 per semester; you would need permission to take more than 18.
- **Schedule:** this tells you when and where the class meets.
- **Instructors:** the instructor for the course appears beneath the course information.

Choosing Courses, Stage 1: Coming up with Options

1. **All First-Year Students take SALEM 110 or SALEM 111:** SALEM 111, Honors First Year Experience, is by invitation only—based on SAT scores, high school GPA, and other factors, the Director of the Honors Program invites a certain number of students to
enroll in this section. If you weren’t invited, don’t worry—there will be other chances to apply for the Honors Program, based on your grades at Salem. Everyone else was invited to indicate their top 5 preferences for a SALEM 110 (First Year Experience) section. Your advisor will let you know which section you were placed into. All of the sections of SALEM 110 and SALEM 111 meet Tues/Thurs, 11:00-12:20. All SALEM 110 and 111 sections are worth 4 semester hours.

2. **Some First-Year Students take SALEM 112:** SALEM 112, Academic Writing Seminar, is a course designed to improve a student’s writing skills. It is required of all students, but some students have that requirement waived because of their high school grades and SAT scores. If you are required to take SALEM 112, it is because in the best judgment of the Salem faculty, you need the extra coaching in writing so that you can succeed in classes that demand lots of writing—and there are lots of those at Salem! If you are not waived from SALEM 112, you should plan to take it your first semester. SALEM 112 is worth 3 semester hours.

3. **Math Requirements:**
   A. Many students want to put off taking math because they have not had much success with math in high school. But the longer you wait, the rustier your math skills get.
   B. Biology, Chemistry, many Exercise Science majors, or students intending to apply for medical or other health-related professional programs: You will want or need to take MATH 100 (Calculus) while at Salem. If your math placement score puts you in a lower Math class, you need to start on it as soon as possible.
   C. Business, Accounting, or Economics majors: You will need MATH 70 (Essential Calculus) or MATH 100 (Calculus). If your math placement score puts you in a lower Math class, you need to start on it as soon as possible.
   D. Most other majors require MATH 60 (Finite Mathematics). Psychology, Sociology, Communications, International Business, Political Science, and Teaching Schools and Society majors: You will also need a statistics course, and you’ll do better to take MATH 60 first.

4. **If you know what you want to major in:** Look below for “What to Take if You Want to Major in”

5. **If you don’t know what you want to major in:** Look below for “Courses that satisfy Gen Ed requirements and are being offered Fall, 2019”

6. **Other Signature requirements to consider:**
   A. Language: If you placed into SPAN 010, FREN 010, GERM 010, or LATN 010, consider taking it in your first semester. Those courses are not offered in the Spring, and so if you choose not to start your language courses now, you’ll be choosing to wait until next fall to begin.
   B. “Double-dipping”: some courses can meet more than one requirement. For instance, PSYC 010, Introduction to Psychology, is a prerequisite for all other Psychology courses, but it also meets the requirement for Quantitative Interpretation. ARTH 180, “Women and Art,” fulfills both the Women’s Studies and the Arts requirements.

_The Registration Process_

Sometime before July 1, your academic advisor will contact you, and between July 1 and July 20, you and your advisor will either talk by phone or email each other. The goal will be for you and your advisor to choose the courses you’d like to take in the fall, plus some alternates.
The advising session will give you a chance to ask questions about majors, about courses offered, about how your AP or dual enrollment credits count, etc.

The advisors submit your course preferences to the dean of undergraduate studies, who works with the registrars to put everyone into classes. You will get an email explaining how you can access your course schedule no later than August 10. If you look at it and want to change something, you can discuss that with your advisor during orientation.

Buying Textbooks

Don’t buy textbooks until after you know what classes you are in; in fact, if you hope to change your schedule once you meet with your advisor, you should wait until you know if that will be possible. Textbook lists can be seen online at: http://salem.bncollege.com/webapp/wcs/stores/servlet/BNCBHomePage?storeId=42562&catalogId=10001&langId=-1

Choose the “Find Textbooks” tab and follow the instructions. You can buy the textbooks from the college bookstore or use the information to order them online. However, be aware that college textbooks are expensive, and in order to succeed in your classes, you will need them from the first week of classes on. If you order them online, make sure that you’ll get quick delivery so that you don’t fall behind.
What to Take if You Want to Major in:
Note: each course has the semester hour value in parenthesis next to it

One of the Natural Sciences:
Biology, Bio-Chemistry, or Pre-Med
- Math placement of MATH 100 or higher: MATH 100 (5), BIOL 100 (4), CHEM 110 (5)
- Math placement of MATH 25: MATH 25 (4), BIOL 100 (4); take CHEM 110 second year
- Math placement of MATH 20: MATH 20 (4), BIOL 10 (4)

Chemistry
- Math placement of MATH 100 or higher: MATH 100 (5), CHEM 110 (5)
- Math placement of MATH 25: MATH 25 (4), CHEM 110 (5)
- Math placement of MATH 20: MATH 20 (4), CHEM 110 (5)

Exercise Science
- Math placement of MATH 100 or higher: MATH 100 (5) (or take MATH 70 in spring), EXER 100 (3), BIOL 100 (4)
- Math placement of MATH 25: MATH 25 (4), EXER 100 (3), BIOL 100 (4)
- Math placement of MATH 20: MATH 20 (4), EXER 100 (3)

Environmental Studies
- Math placement of MATH 100, 60, or 25: MATH, BIOL 100 (4); ENVS 100 (3) or ENVS 120 (4)
- Math placement of MATH 20: MATH 20 (4), BIOL 10 (4); ENVS 100 (3) or ENVS 120 (4)

Psychology
PSYC 010 (4) is prerequisite to other courses in the major, so take it as soon as possible.

Fine Arts
- Art and Design majors should take ARTS 20 (4) in their first semester, ARTS 25 (4) in their second semester, and ARTS 111 (4) in either semester of their first year. ARTH 121 (3) and/or 122 (3) are also good choices.
- Music Majors should consult with Prof. Cristy Brown (cristy.brown@salem.edu)
- Dance majors are advised to take either DANC 220 A (2) and B (2) or DANC 104 (3); at least one technique course (034, 036, or 039); and consider DANC 020 or 022 if the student wants to participate in the fall concert. Dance Science majors should add math, Biology, and/or an Exercise Science course.

Arts Management/Not-for-Profit Management
ARMN 100 or NFPM 100 are good courses to begin with (all are 3 semester hours).
Business, Accounting, or Economics
Good classes to begin with: ACCT 120 (3) and ECON 100 (4). If the math placement is MATH 20 or 25, and the student is certain she wants to major in BUAD, she should definitely take MATH 020 (4) during the fall semester, in order to be able to take MATH 70 in the spring (it’s only taught in spring).

Criminal Studies
CRST 100 or SOCI 100 are prerequisites for other courses in the major (all are 3 semester hours).

Education
Students who want to be licensed teachers are NOT encouraged to take Education courses during their first semester at Salem. Instead, they should concentrate on meeting Signature requirements, particularly the Math and Modern Language requirements. In the Spring semester of their first year, they are encouraged to take EDUC 110 and 112. Students interested in elementary education may also do well to take one or more of these: PSYC 010 (4), SOCI 100 (3) and POLI 105 (3).

Political Science
POLI 100, 105, or 250 would be good choices (all are 3 semester hours).

Sociology
SOCI 100 (3) is prerequisite to other courses in the major, so take it as soon as possible.

Humanities:
If you want to major in Creative Writing, English, History, Spanish, or Religion, you should take at least one course from the area you think you want as your major, and then let your other classes fulfill Signature (gen ed) requirements.

- Creative Writing
  - CRWR 212 (3) is prerequisite to everything else, so take it as soon as possible.
- English
  - ENGL 231 or 292 are good choices (all are 3 semester hours).
- History
  - HIST 103 or 105 are good choices (all are 3 semester hours).
- Spanish
  - Where you begin will depend on your placement exam—your advisor will help you know what to take.
- Religion
  - RELI 110, 120, 160, or 220 A are good choices (all are 3 semester hours).
- Race and Ethnicity Studies
  - REST/SOCI 202 is a core requirement and should be taken as soon as possible.
Courses that satisfy Gen Ed requirements and are being offered Fall, 2019:

- **Science**: BIOL 010 (4), which is a lab science course for non-science majors. ENVS 120 (4) also fulfills the lab science requirement, and is required for ENVS majors. If you are going to major in Biology, Chemistry, Biochemistry, or Exercise Science, you should take BIOL 100 (4) or CHEM 110 (5) if you place into MATH 25 or higher. If not, you should take BIOL 010 (4) and MATH 20 (4).

- **Social Science**: COMM 170 (3); ECON 100 (4); POLI 100 (3) or 105 (3); SOCI 100 (3); CRST 100 (3).

- **Arts**: ARTD 248; ARTH 122, 150, 180; DANC 104; MUSI 103, 110 (all are 3 semester hours).

- **Humanities**: CRWR 212; ENGL 231, 292; HIST 103, 105, or 221; RELI 110, 120, 160, or 220 (all are 3 semester hours).

- **Mathematics**: Depends on your math placement score—your advisor will help you with this.

- **Language**: whatever course your Language placement score recommends. SPAN 10, SPAN 25, FREN 10, and GERM 10 are always taught in the fall; SPAN 20, FREN 20, and GERM 20 are always taught in the spring; SPAN 30, FREN 30, and GERM 30 are always taught in the fall. For Fall 2018, Salem is also offering LATN 10 and LATN 30. [FREN 10, 20, 30; SPAN 10, 20, 30; and GERM 10, 20, 30 are all 4 semester hours. LATN 10, 20, 30 are all 3 semester hours.]

- **Women's Studies**: ARTH 180, DANC 104, EXER 245, HIST 221, MUSI 110, WMST 204 (all are 3 semester hours).

- **Quantitative Interpretation**: ACCT 120 (3), ECON 100 (4), ENVS 100 (3), MATH 100 (5), PSYC 010 (4).

- **Global Awareness**: HIST 103, HIST 286, RELI 110, 120, 220 B; SOCI 202 (all are 3 semester hours).
### Salem Impact Requirements for Traditional Age Students

**Liberal arts-interdisciplinary dimensions**
- SALEM 110 or 111-First Year Experience
- SALEM 112-Academic Writing Seminar-based on placement
- SALEM 113
- SALEM 350-Senior Interdisciplinary Seminar
- Women’s Studies-one approved course chosen from a list
- Quantitative Interpretation-One approved course chosen from a list
- Global Awareness---One approved course chosen from a list

**Liberal arts-disciplinary dimensions**
- Science-one approved introductory course with laboratory
- Social science- one approved introductory course
- Arts-one approved introductory course
- Humanities-one approved introductory course
- Mathematics-MATH 060, 070, or 100. Students may satisfy proficiency in MATH 060, 070, or 100 through a proficiency examination administered by the Salem College department of Mathematics. The mathematics requirement is waived for students who place into MATH 101 or higher.
- Language of another culture-proficiency at the intermediate (30) level-may require up to 3 courses depending on placement

**Liberal arts-experiential dimensions**
- SIGN210-Service Learning Seminar or approved departmental course
- Internship (Departmental or SIGN 270)/ Professional Development Experience
- Wellness- PHED050 and _____ _____two Physical Education activities
